**Attachments:** Combined Map for CSD.pdf; CentralSandsDairy\_WIDNR\_000351, Map of fields with 2008 add'ns.pdf

Hi Cheryl,

Believe or not I never had in my possession a GIS layer of CSD fields that were attributed with the unique field id identifier. Nor am I aware that such a GIS layer is in existence.

You probably concluded that I must have such a layer due to the 1<sup>st</sup> attached map that I created that shows application fields outlined in red. I digitized that application fields layer using a combination of CSD's NMP and land parcel ownership data from the counties, but I didn't have any reference field id's to populate the attribute table.

The good news is that if really needed, I can create an application fields GIS layer that includes these unique field id's using the 2<sup>nd</sup> attachment I found posted in the WECAB directory on the g: drive. It looks like all of the field id's on the list you sent me are accounted for except for the first two fields on your list, Basse North and HC-1. If you could send me additional information or a map showing these fields, in the meantime I can get started on digitizing a GIS layer using the 2<sup>nd</sup> attachment as reference information for those application fields highlighted and their field id's.

Do you like this plan? Or do you think perhaps someone has already created such a GIS layer of CSD application fields that includes the field id's?

Milo

**Subject:** Fields applied on in the fall for 2017 or SWQMA Areas

Hi Milo

Attached is a file that contains the proposed fields to applied on in 2017 fall or in the SWQMA areas for Central Sands Dairy, LLC could you provide me a map of where these fields are located.

Thank you.

Sincerely,

Cheryl Burdett
